

Oficio Circular N° 005/2015 - OLACEFS/PRES

Brasilia, March 18, 2015

Dear colleague:

You are cordially invited to the 8th EUROSAI-OLACEFS Joint Conference on June 24 to 26, 2015, in the city of Quito, Ecuador—declared a World Heritage Site by UNESCO in 1978.

Beginning with the first EUROSAI-OLACEFS Conference in Madrid in 2000, Supreme Audit Institutions (SAIs) from our two continents have gathered periodically to exchange experiences with a view to strengthening their audit and oversight work. This June, outside specialists and representatives from multilateral institutions will engage with SAIs in discussing the topics “Coordinated Audits” and “SAI Contributions to Good Governance.”

We will delve into these topics by considering how they relate to capacity building, distance learning, sustainable development goals, transparency, ethics, and open data, among other leading-edge issues, in an innovative format that will encourage all attendees to participate actively. It is our hope that we will all leave the conference with new insights that can contribute to improvements in our respective institutions.

To stimulate creative thinking and fresh ideas, SAIs may want to consider including one person under 35 years of age in their delegations.
