

Capacity strengthening initiatives regionally and/or intra-regionally

CAROSAI

June 2018

CAROSAI's Strategic Priorities 2017 - 2021

- ▶ High quality audits creating regional impact
 - ▶ ISSAI based cooperative audits
 - ▶ CAROSAI quality assurance mechanism
 - ▶ CAROSAI support for ISSAI compliant audit practices
- ▶ Strategic performance measurement and reporting for effectiveness
 - ▶ SAI-PMF
 - ▶ SAIs strategic business and capacity development plan
- ▶ Effective stakeholder engagement to maintain relevance
 - ▶ Stakeholder mapping
 - ▶ Active engagement

Need for Knowledge and Experience Sharing

- ▶ Compliance with ISSAIs
- ▶ Use of best practices
- ▶ Make full use of resources available within our community
- ▶ Learn from each other
- ▶ Become a force to reckon with globally, rather than just individually or regionally

Capacity Building initiatives globally, regionally and/or inter-regionally

Discussion questions:

Integration of capacity development initiatives

1. To what extent is there still a need for greater integration/coordination of capacity development initiatives among SAs, regions, and at a global scale?
2. What opportunities already exist, or can be created, to enable purposeful integration of capacity development?
3. What are the key lessons we've learned in past attempts to integrate capacity development initiatives?
4. Who would/should be the key role players involved in such integration initiatives?

Capacity Building initiatives globally, regionally and/or inter-regionally

Capacity development challenges

5. How can we maximise development impact through our training interventions and consequent follow-ups?
6. How do we overcome the challenge of language barriers faced most regions?
7. Regarding eLearning within INTOSAI, how can we prevent duplication of efforts if there is already successful implementation of eLearning by INTOSAI organs or regions?
