## SAI Capacity Database

Browse through our database to get information on capacity development initiatives targeting SAIs at the INTOSAI global, regional and country levels! The database also contains project proposals submitted under the Global Call for Proposals. If your organization is interested in supporting any of the proposed initiatives, please [contact us](#). You do not need to be logged in to view the information in the database. You can use the quick filters or customize the search by clicking on "custom filter search". You can also click on the country in our interactive map to see country level projects.

### Quick filters:

[Filter on All projects](#)

[Filter on All Proposed projects](#)

[Filter on All Planned projects](#)

[Filter on All Ongoing projects](#)

[Filter on All Completed projects](#)

# What can the database help you with?

- See capacity development projects around the world
  - Monitor donor activity
  - Monitor regional activity
  - Highlight completed and ongoing projects in your region to donors
  - Identify needs
  - Showcase projects that have been carried out according to MoU principles
-

# What are the MoU Principles?

- 1) Scaled-up support
- 2) SAI-led strategies
- 3) Harmonization
- 4) Coordination

# Discussion Questions

- 1) Are the MoU Principles being followed in your region?  
Why/why not?
- 2) What activities do you currently undertake at the regional level to promote the MoU Principles?  
What activities or initiatives could you undertake in the future?
- 3) What can the INTOSAI Donor-Cooperation do to help the regions and SAIs ensure that donor-funded capacity building projects follow MoU principles?
